

“GUTTERLINE DOES EXACTLY WHAT IT SAYS ON THE TIN!”

Brand Clad, one of the UK’s leading and award winning specialists in cladding, roofing and building maintenance has been using HD Sharman’s Plygene Gutterline system for over ten years.

Dave Natrass from Brand Clad said, “HD Sharman’s product does exactly what it says on the tin, it stops gutters leaking, which is why we’ve been using it on our projects for such a long time. We work on cladding, roofing and building maintenance projects right across the UK in industrial, residential and agricultural sectors. We’ve used Gutterline on many projects, including recently at Swaleside Prison.”

Dave rates HD Sharman’s service as second to none, scoring them a fantastic 10 out of 10. He explains, “Delivery is always on time and sometimes if we have an urgent job they manage to get the product to us in a really short time frame. I cannot fault the level of service. They are continually refining and

improving their products and service and I’ve seen a few subtle changes along the way, for example the outlets are far easier to install now.”

Dave and his team haven’t taken advantage of HD Sharman’s free installation training sessions but have experienced exceptional on-site service, “they will come out and support us when necessary. The on-site assistance was as good as any training.”
