

PLYGENE GUTTERLINE HELPS NOT FOR PROFIT HOUSING GATEWAY REDUCE OVERHEADS

Not for profit housing gateway, Greenfields Community Housing, is responsible for over 8000 residential properties throughout the Baintree, Witham and Halstead districts of Essex, providing repair and maintenance services to residents 365 days a year. Over 40 properties have HD Sharman's Plygene Gutterline for Finlock lining their gutters, helping to reduce costs and stop gutters leaking.

Developed specifically for residential type gutters, Plygene Gutterline for Finlock provides a permanent and economical solution to leaking gutters. When installed in residential gutters, Plygene Gutterline creates a 'gutter within a gutter' which makes it impossible for water to get behind or beneath. This allows Greenfields to resolve residents' leaking gutters quickly and effectively, without the disruption and cost of replacing built in gutters. Plygene Gutterline helps save time and money repairing Finlock gutters and has had a significant impact on the community gateway's performance, which is monitored and published on their website.

Greenfields attended HD Sharman's free training sessions and they now have the skills in house to install Plygene Gutterline themselves.

Richard Dockrell, responsive repair area manager said "a team of our tradespeople attended HD Sharman's free training course and we no longer need to pay contractors to install Gutterline as we have the skills to do it

ourselves, saving between £600-£700 per gutter repair. We also work with HD Sharman because of their support. Each quote is calculated quickly and accurately and the products are delivered on time and to budget. It's these value added benefits that help us control our overhead costs and offer excellent services to our residents."

Greenfields is so confident in Plygene Gutterline that the system has been used to reline the aluminium guttering on its own office. Richard Dockrell said "The Witham area office underwent major roofing renovations, and when considering cost effective ways to solve leaking gutters, there was only one choice, Plygene Gutterline."
