

# "GUTTERLINE REDUCES THE AMOUNT OF WORK INVOLVED, WHICH MEANS GREAT COST SAVINGS FOR MY CUSTOMERS"

**Brian Steel of Steel Roofing Ltd in Castleford has been working with HD Sharman since his business started over 7 years ago.**

"I came into contact with HD Sharman at one of their free training courses for the company I worked for at the time. I was very impressed with the product and the people and could immediately see the benefits of working with Plygene Gutterline®."

Steel Roofing Ltd fits cladding for industrial buildings and offices, working on projects all over the UK. Leaking gutters are a common problem and it is very time consuming and costly to take down broken gutters for repair. Brian continues, "The Plygene Gutterline® system is just such a great idea, a hard-wearing liner, made-to-measure, which simply fits inside the existing broken gutters. With Plygene Gutterline® there's no need for any structural work so it's very quick to resolve and at significantly less cost."

**"PLYGENE GUTTERLINE® OFFERS HUGE COST BENEFITS FOR OUR CUSTOMERS BECAUSE IT REDUCES THE AMOUNT OF WORK INVOLVED."**  
**STEEL ROOFING LTD**

Plygene Gutterline® is a value added service for my clients and I am 100% confident in it every time."

Brian continues, "I have a very close working relationship with HD Sharman and they are now more like family! I cannot speak highly enough of their products or their company."
