

# SPECIALIST GUTTERING COMPANY CHOOSES GUTTERLINE BECAUSE IT'S THE BEST SYSTEM OUT THERE.

**Specialist guttering company, The Guttering Company Ltd have worked with HD Sharman for over five years because of their Plygene Gutterline® system.**

Owner of The Guttering Company, Toby explains, “We specialise in aluminium and copper gutters, mainly refurbishment projects, although we do work on some new builds. A lot of the council properties we work on were built in the 1950’s and 60’s and their gutters always leak. By using Plygene Gutterline® there’s no remedial work necessary, making it a faster job and therefore much more cost effective for our customers.”

Plygene Gutterline® is a strong gutter lining manufactured exclusively by HD Sharman, designed to stop gutters leaking for good. It is important to The Guttering Company that the product does what it says as it is their customer relationships that are on the line, but they have absolute faith in the quality of Plygene Gutterline®.

**“YOU CAN ALSO FIT GUTTERLINE WHATEVER  
THE WEATHER, EVEN IF IT’S WET.”  
THE GUTTERING COMPANY LTD**

Toby continues, “We get no come backs over the Gutterline product. We’ve used other products before but Plygene Gutterline® is by far the best system. It’s supplied on a complete roll which makes it quick and easy for us to install. You can also fit Gutterline whatever the weather, even if it’s wet. This is a big advantage in our line of business, as the weather doesn’t delay the work. HD Sharman provides a complete system, including fixings and outlet fittings. They make sure you can just get on with the job in hand and it makes a big difference to the speed, quality and cost of the work to our customer.”

The Guttering Company have also used HD Sharman’s training and support service over the past few years. Toby said, “I attended one of their training courses when I first started using the Plygene Gutterline® system. They are very professional and offer good technical advice. It does help you to fit Gutterline properly and I’ve since sent other members of my team on courses. And the courses are free! What more can you ask?”
